The Auto Archaeologist

I have been hunting cool old cars for over a decade. I've had my 1971 Challenger sitting in my garage for 20 years, and never really driven it. I'm not just "The Automotive Archaeologist", I'm also a member! And sometimes things come due.

I'm out on the road a lot, especially in peak "Barn Finding" times of year normally from March through May and then again August through December sometimes. The weather gets agreeable, less bugs, ticks, etc.... I really like hunting in late Winter. All the foliage is on the ground and you can see so much more before all the greenery pops up.

I plan my year around some major events for the most part that I partake in, Hot Rod Power Tour, Woodward Dream Cruise week and MCACN (The Muscle Car and Corvette Nationals). There are other smaller events in between, but those are the biggies. And for the most part it works out wonderfully, Power Tour is always early June, start of Summer. Dream Cruise is in August and kids are going back to school and things are getting less crazy. MCACN is always the weekend before Thanksgiving. Which gives a nice flow to the year.

Going with that flow has been a wonderful path to follow. Between the events I can go and hunt and document cool cars in neglected situations. I visit with friends when I travel, see cool places and meet with interesting people. There is always more adventure out there if you give yourself over to it.

People ask me all the time how do I find what I find. I tell people I have no dignity and talk to anyone and everyone. And while I might not preach what I do, I do inform people of the shenanigans I get up to and usually people will share info with me, either in person or through other contact means. That's why I love going to these events through the year. Spring and Fall Jefferson has always been cornerstones of my year. Even if there is no Big Bar to celebrate with.

This year has been different, the first half of the year went well, and I was on Woodward Avenue when I got word a family member was ill, and things were not going to get better. You think you have things planned, and all lined out. And one phone call can change everything. Those plans are in the wind now. The family has circled the wagons and we're staying put to keep the spirits of our family high.

It just makes you really think about what's important. What you think about the future and the plans you made and how quickly that can all change. Yes, it sucks, but you do what you have to do. You make it work; you go where you have to when you have to.

We're lucky though to have a lot of supportive friends for our small family. And we had a good six months before things hit the fan. One of the things that came into focus was that 71 Challenger that's been sitting in my garage for 20 years. My sick family member wants a ride in it. So, you know what I'm doing, I'm out in the garage working on it when I can with what knowledge I have. I'm learning new things every day (3rd time is the charm for rebuilding drum brakes on an 8 3/4). Need new engine mounts, well a 2x4 and a jack will get you most of the way there.

Just remember to cherish every moment you have. Time is something you can't buy. You think your future is set in stone, but it's more like set in sand. There one minute, gone the next. Make sure those that are important to you know. You don't know if or when you might get that phone call. But you don't want to live with regrets. Like a 71 Challenger sitting in the back of the garage for 20 years.

The Jefferson Auto Swap Meet and Car Show SEPT 25-26, 2026

Hosted by Madison Classics, Ltd, has been a staple event in the classic automotive industry for decades. Celebrating 49 years in business, Madison Classics is known as the promoter behind one of the largest automotive swap meet and car shows in the Midwest.

Held twice a year—in the spring and the fall—at the Jefferson County Fair Park in Jefferson, Wisconsin, it draws massive crowds of auto enthusiasts, collectors, and vendors from across the country and internationally.

Book-ending the summer, these events have earned a reputation as the unofficial kickoff and finale of Wisconsin's classic car season and many enthusiasts consider these events a "tradition" and one of the best places to buy and sell parts, connect with other "gear heads", and overall celebrate a beloved classic car hobby.

Alongside other major Midwest events, car enthusiasts frequently recommend Jefferson as a must-attend event as each show attracts thousands of enthusiasts looking for vintage parts, restoration supplies, memorabilia, and of course, collector vehicles. Spanning approximately 99 acres, the event features more than 3,100 outdoor swap spaces, hundreds of indoor vendor spots, and hundreds of pristine vintage and custom vehicles.

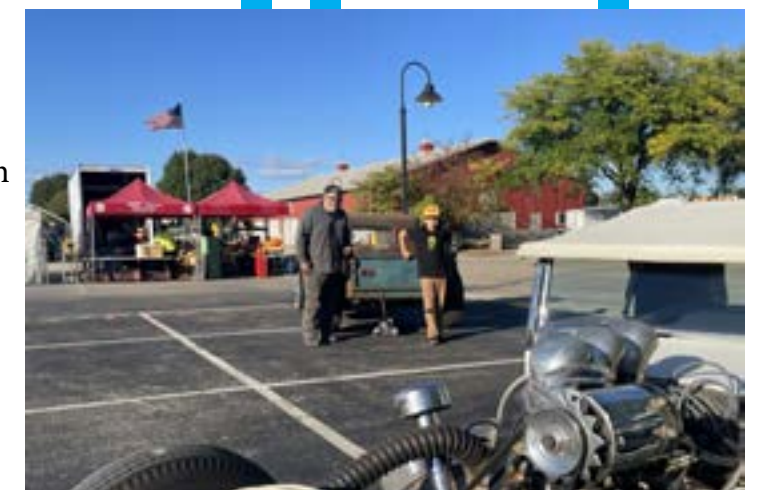

Each show there is a special vehicle in the spotlight which crosses all makes and models. As Gary Esse, Owner of Madison said "The Jefferson shows go beyond one person, or one car. It is about bringing people together to celebrate the culture that surrounds the classic automotive industry and means a whole lot to me, my family, and those that have participated in our events for decades. The Jefferson community has been there every step of the way and we are proud to have strong partners supporting us as we celebrate 50 years in business."
